PRESS RELEASE  
FOR IMMEDIATE RELEASE

**SAVANT ENTERPRISES LIMITED CELEBRATES FUNDING AWARD FOR PDA  
BASED CLINICAL INCIDENT RECORDING PILOT**

Savant, a leading Healthcare Software Development and Consultancy organisation is celebrating the award of a grant from Advantage West Midlands to carry out a pilot study into handheld incident recording solutions for hospitals.

Glyn Jones, Savant's Business Development Manager stated "We are delighted to be awarded the grant to work with the Hospital and University on this exciting project with great potential to improve levels of incident reporting in hospitals throughout the UK."

The project will involve the University Hospital of Coventry and Warwickshire and Coventry University's Centre for Applied Research in eWorking on a pilot that involves the Anaesthesia and Obstetrics Department, Health Services Research Centre and the School of Art and Design collectively working together to develop an user friendly electronic reporting system.

Peter Haine, Director of the Centre for Applied Research in eWorking commented "Savant has an extensive track record in Healthcare Software Development and we look forward to working with them on this project which offers a clear opportunity to increase the levels of incident reporting in hospitals throughout the UK."
