September 2007 e-Newsletter

We're Moving

In our twenty fifth year we are delighted to inform all our clients and suppliers of our future move to Dalton Hall in Burton-in-Kendal. At the moment we hope the move will happen in October this year. The move is driven by the success of our products and services, which has led to a need for expansion. Our new Dalton Hall premises provide us with excellent office and training facilities in which we will continue to work efficiently and to grow.

'The new premises will provide Savant with an improved environment for our staff and customers and offer additional space for expansion. It is a fitting way to mark our 25th anniversary in business and a statement of our intent to develop the company in the future.' (Ian Gray, Managing Director)

'I am very pleased with our new premises and the opportunity it offers us for future development. The move to Dalton Hall allows us to concentrate on our current strengths, whilst reflecting on our past successes.' (Glyn Jones, Business Development Manager)

If you have any other queries regarding the move please contact us on 01524 737 300.

Contact Details

We will let you have full contact details shortly. Note these may include a change of phone number.

Open Days

After the relocation we will be holding a series of Open Days at Dalton Hall. We hope all our customers and suppliers will be able to take advantage of these and visit us at our new premises. Dates for these Open Days will be sent out in due course.

Product News

Savant Enterprises Limited has successfully sold its innovative PDA based MobileRanger system to the Ipswich Central BID. Serious IT, an Ipswich based IT Services Company, will be implementing and supporting the MobileRanger application for Ipswich Central and future clients.

'The MobileRanger system is an excellent tool for recording Ranger activity and reporting our activities back to our partner businesses and organisations. It should act as a catalyst for other technology changes in the way the BID works.' (Paul Clements, Head of Ipswich Central BID).
